

Annual Pest Control Agreement

(Sign up now and save money)

Treatment Plan:

This is a 3-year annual agreement. Sign this agreement with Sho-Me Pest which includes a general pest control treatment of the interior of your home and the perimeter around the exterior of your home. It includes control for all species of ants (excluding carpenter ants), spiders, silverfish, pillbugs/sowbugs, earwigs, ground beetles, millipedes, centipedes; over 75 different pests. We will perform this service once a year around the same time as your first initial treatment for a period of 3-years or until agreement is void. During the service we will also remove exterior spider webs and wasp nests (that we can see and reach).

This also comes with a 90 day re-treat agreement. If you are still having a pest concern after the initial treatment for that year, we will come back within 90 days of your initial treatment to retreat your areas of concern at no additional cost to you.

(Any additional treatments such as out buildings or yards will have to have a cost estimate done. Pricing will be based on the area you are wanting treated. Certain pests, such as wood destroying ants, black widow spiders, brown recluse spiders, bed bugs, fleas, rats, or mice require additional inspections and charges.)

Sign up today and receive a 10% discount off total price! Call for pricing info.
