

General Pest Control Treatment

Treatment Plan:

This is a one-time full treatment of the interior of your home and a perimeter treatment around the exterior of your home. Includes control for all species of ants (excludes carpenter ants), spiders, silverfish, pillbugs/sowbugs, earwigs, ground beetles, millipedes, centipedes; kills over 75 different pests. During the service we will also remove exterior spider webs and wasp nests (that we can see and reach).

This also comes with a 90 day re-treat agreement if you are still having a pest concern after the initial treatment. We will come back within 90 days of your initial treatment to retreat your areas of concern at no additional cost to you.

CALL TODAY FOR PRICING AND TO SCHEDULE AN APPOINTMENT!!

(Any additional treatments, such as out buildings or yards, will have to have a cost estimate done. Pricing will be based on the area you are wanting treated. Certain pests, such as: termites, roaches, wood destroying ants, black widow spiders, brown recluse spiders, bed bugs, fleas, rats, or mice, require additional inspections and charges.)
