### **LIMITED CHEMICALS INSIDE!**

This is a premier pest control service and includes control for all species of ants (excluding carpenter ants), spiders, silverfish, pillbugs/sowbugs, earwigs, ground beetles, millipedes, centipedes; over 75 different pests. During each service, we also remove exterior spider webs and wasp nests (that we can see and reach). The initial treatment includes a general pest control treatment of the interior of your home and the perimeter around the exterior of your home.

**After initial treatment no chemicals inside unless necessary.**

1. Fanspray exterior doors and windows.
2. Remove spider webs and wasp nests on outside of the house (that we can see and reach).
3. Power spray exterior perimeter three times a year. (Any additional treatments, such as out buildings or yards, will have to have a price estimate done).

Pricing will be based on area you are wanting treatment. (Certain pests, such as: termites, roaches, wood-destroying ants, black widow spiders, brown recluse spiders, bed bugs, fleas, rats or mice, require additional inspections and charges.) No additional charge for service between quarterly services. Contact us ASAP to schedule your initial service or if you have any questions.
